HOMEOWNERS PERMIT POLICY

WARNING: If you are entering into a contract with an unlicensed contractor for an amount over \$600.00 you are aiding and abetting, a violation of Michigan Law, which is a felony.

The Michigan Licensing Law gives a homeowner an exemption to act as their own general contractor. This means that in the case of a single family residence the home owner may obtain a building permit for the construction of his own home even though a licensed builder may be significantly involved. If you, the homeowner, choose to act as your own general contractor be aware of the following: **AS THE PERMIT HOLDER YOU, THE HOMEOWNER, INCUR ALL OF THE LIABILITY AND ALL OF THE RESPONSIBILITY THAT THE LICENSED CONTRACTOR WOULD NORMAL ASSUME.** Also, Caseville City or Township cannot assist you in any cause of action against an unlicensed contractor you hired; you must have a complete understanding of the current building code; you are responsible to correct any code violations if the contractor or other persons did the work under the permit you obtained; in the event of an occurrence beyond the builders control which causes the builder to be unable to complete the work you will be legally responsible for the completion of the job under the permit you obtained. You have no warranty for defects in material or workmanship; you have no recourse for poor workmanship; you are responsible for all workers and supplies even if you have already paid your unlicensed contractor; you are responsible for all insurance, which means you are liable for injury and death of contractors, subcontractors and their employees, neighbors, family members, or anyone who enters your job site. You are also responsible for damage, vandalism theft and fire at your job site.

I/We have read and understand the above information and still wish to do own general contracting.
